

First and foremost, we want you to know that at Wilder RV we value the health and safety of our customers and employees. We believe that it's our responsibility to help stop the spread of COVID-19, and to do that we have decided to temporarily close our doors.

Effective Wednesday, March 25th at 5pm we will be closed until further notice. We are aware that this will cause an inconvenience for some of our customers, but the health and safety of our community must be our top priority.

During this time we will be available to answer phone calls for sales, service and parts questions. We will also be working by appointment for anyone who wants to take delivery of a new or pre-owned camper during this time.

I highly encourage you to visit our website, [www.wilderRV.com](#), where you will find multiple ways to contact us including phone, text and email. You will also find an abundance of information available on all of the products we carry, including a link to our parts and accessories catalogue.

Please make sure to check our website and Facebook page for any updates regarding this situation.

On behalf of our dealership, thank you for being a loyal customer. Please don't hesitate to reach out as we remain dedicated to serve you and all your camping needs through this challenging time.

Sincerely,

Preston Smith
